Use the can opener to open up a can
Use the magnifier to get yourself a tan
Swiss Army Knife ... Do anything for you

You can use the tweezers to get a splinter out.
Use the fish scaler when you need to clean a trout,
Swiss Army Knife ... Do anything for you

My dog was hit by a flaming meteorite,
so I operated with my Swiss Army Knife
... Do anything for you.

Screw driver, scissors, wire stripper, toothpick,
reamer, wood saw, a compass that's real slick.
Swiss Army Knife ... Do anything for you

flame thrower, snow blower and a parachute
Swiss Army Knife ... Do any thing for you.

Yesterday, I fell from an airplane and lost my life
Too bad I didn't have that Swiss Army Knife.
... Do any thing for you.

(instrumental break - slide F form up the neck for
G and A after first A in each part. For speedier
chord changes, I don't play or hold the first
string when playing F chords in this song.)

A F G A F G A F G A

Hey there camper don't be a fool
Save up your pennies and get this little tool.
Swiss Army Knife ... Do anything for you

... Do anything for you.
